Minutes of Meeting Dated: _____

(Council approval required if change order or total change orders exceed 10 percent of contract price or if individual change order)

CONTRACT CHANGE ORDER NO. 3
Change Order Details

| Change Order Items | Description | Amount | Time Increase |
|--------------------|---|-----------------------|---------------|
| 1 | WCD 014 - During pre-construction, a 10" abandoned water main in Olive Ave. between First Street and Ninth Street was determined to be in conflict such that abandoned main is at the edge of the RTM trench and would necessitate additional paving and excavation for its removal. The abandoned water main is shown on the plans, however, its location is incorrectly shown as not being in conflict with the RTM. Accordingly, the Contractor was directed to move the RTM alignment such that the 10" abandoned water main falls wholly in the RTM trench, thus reducing the quantity of additional paving and excavation as compared to the original RTM design alignment. This work directive is for the realignment of the RTM and the additional removal of the 10" abandoned water main. | \$ 35,997.73 | 0 |
| 2 | COR 009 - During construction, the Contractor encountered two 24-inch EJ Gallo steel irrigation lines at Olive and Sunnyside. The Contractor was given direction to install the RTM deeper underneath the irrigation lines. In order to do so, the Contractor needed to remove two segments of RTM pipe. | \$ 20,151.62 | 0 |
| 3 | COR 010 - The Contractor broke unmarked PG&E electric cables not shown on the plans on Olive Ave. at Sta. 657+91 (700' west of Sunnyside). PG&E determined that the cables were not live, and once confirmed, the Contractor sawcut and removed the cables and resumed RTM installation. | \$ 5,343.13 | 0 |
| 4 | COR 011 - The Contractor broke unmarked PG&E electric cables not shown on the plans on Olive Ave. at Sta. 654+78 (1000' west of Sunnyside). PG&E determined that the cables were not live, and once confirmed, the Contractor sawcut and removed the cables and resumed RTM installation. | \$ 2,513.76 | 0 |
| 5 | COR 013 - During RTM installation, the Contractor encountered 1-1/2" unmarked gas service and a 3/4" unmarked water service that were not shown on the plans at Olive and Ninth. The location of the utilities precluded the Contractors ability to properly shore the excavation with materials onsite. | \$ 5,259.46 | 0 |
| 6 | COR 012 - During RTM installation, the Contractor encountered three unmarked PG&E gas mains located between Station 492+62 and 492+38 on Olive Ave. west of HWY 168. None of the PG&E mains were broken, however, additional work was necessary in order to excavate, support and shore the trench. | \$ 14,278.61 | 0 |
| 7 | COR 014 - Eight RTM pipes were improperly installed such that the welding seams from the manufacturer align at the pipe joints. The Contractor proposes a credit back to the City of \$12,000 per joint. | \$ (96,000.00) | 0 |
| | | \$ (12,455.69) | 0 |

Note 1: Complete backup information is attached to this Contract Change Order.
