Subject: RE: ABC High Crime Area

Ok this is BEAL DEVELOPMENTS LLC. He is in census tract 6. There are 5 licenses recommended for this area and 9 existing. And the crime reporting district is 2554. 543 calls for service is considered high crime for Fresno and there are 1410 calls for service in his crime reporting district. So his area would be considered to be both over concentrated and high crime. I am going to Cc Stella Reyes on this email since she is the Licensing Representative working on this file. If you need anything specific for this file, she would be the one to go to!

Ok. Thank you. If needed, I can check with the PD. I just wanted to check with you since our code says "as determined by ABC." I can also provide the address of the proposed location if you're able to at least say if it would be considered high crime from your end.
