He would also like to use Orange and Butler as a source of funding and to include that for the next year.

Upon call, the following members of the public addressed Council: Preston Prince, Kamaljit Gill, Debbie Daren and Robert Mitchell

The public hearing was closed at 10:31 A.M.

Council Vice President Arias expressed his frustration with Administration for the lack of information regarding the scope of the project, the reason why the projects are being delayed and how they got here. Council Vice President Arias voiced his concerns with the three projects, Dickey Youth, JFK and Fink White parks being unfunded and would like the money to be replaced in this budget cycle before supporting the relocation of the funds.

Councilmember Soria communicated her frustration with Administration for the lack of understanding of the problem and why the projects are being delayed. She suggested to submit the funds from the sale of the parking lots to the projects and look into a housing trust fund where they can put the money and leverage the dollars. She is concerned with the lack of representation on the Housing and Community Development Commission (HCDC) and would like Administration to make sure there is a true representative of the City of Fresno for that Committee.

Assistant Director Furtado responded to Councilmember Chavez request.

Councilmember Esparza read into the record Housing and Urban Development (HUD) definition of the Community Block Grant Program (CDBG) and stated it was ambiguous. Councilmember Bredefeld asked staff how did we get here, how did the money that was supposed to be allocated for parks, Dickey Youth, Development Center and other places be reprogram and what is the justification for that. He asked who made the decision to move money away from one project to the next and why the Council wasn't consulted or made aware of the projects being changed. He stated there needs to be better communication with the Councilmembers. Assistant Director Furtado and City Manager Quan responded.

Council Vice President Arias stated he would like to have a complete scope of the project for each park and a timeline for execution. He would like the assurance in writing that the money will be in the current budget cycle. City Manager Quan replied.

Councilmember Caprioglio addressed his concerns regarding no representation on HCD and suggested the members be adjusted to 8 members; one from each Council district and the other from the Mayor's office. He also requested he be a part of the subcommittees suggested by Councilmember Esparza. Councilmember Caprioglio suggested that his community center be budgeted for two years and appreciates the support from Council and Administration.

Council President Brandau asked Administration if CDBG established a list of projects and when was that last presented to Council. He stated some projects are not ready to spend the money in this current budget year and

asked for the proof as to why the deadlines are not met. Council President Brandau would like staff to inform the public that there is a solution for the projects. Assistant Director Furtado responded.
