The existing site currently exists of vacant _____ with 0 _____ existing parking spaces.

The proposed hours of operation are from 12 am to 12 pm on 7 days a week

Other facts pertinent to this project are as follows:

Site improvements will include new landscaping and irrigation, fueling canopy, 4 MPDs, new trash enclosure, new paving and both air and water resources for site patrons. The request is also for off-site beer and wine.

Operational Narrative: (*This is your opportunity to communicate in detail all other characteristics of your property that would be important to consider when reviewing for completeness and contemplating approval. Describe your proposed operation/development in as much detail as possible including information such as name of business, product or service, anticipated traffic-customers, deliveries, etc., any special events, number of employees, required equipment, on-site storage, demolition or adaptive reuse of existing structures, noise generation, any hazardous materials, etc.*)

The proposed project is located along Tulare Avenue, a major, commercial thoroughfare. The City has determine that this corridor is appropriate for commercial uses and the addition of a 7-11 at this location will provide the local community and residents a convenience store amenity that is both pedestrian and transit friendly. The orientation of the store allows access from the street as well as the fueling station and the glazing along both Avenues keeps the street activated. This development will facilitate the transformation of the corner into a beautifully landscaped, local-serving use that enhances the adjacent neighborhood. A new development on a vacant lot will make the neighborhood safer and will hopefully act as a catalyst for future redevelopment along Tulare Avenue.
