Mayor's Reasons for Vetoing Resolution 2019-086 entitled Assigning Office and Parking Space

I am attaching my written objections and my reasons for vetoing Resolution 2019-086, entitled Assigning Office and Parking Space.

I do not believe this resolution is in the best interests of the people and taxpayers of the City of Fresno. Instead of spending our valuable and limited time and resources on ways to make our community safer, more prosperous and improving the quality of life for everyone, the City Council is arguing with the Mayor and his administration over office and parking spaces and the City Council has taken it a step further by passing this resolution.

I object to the City Council forcing the relocation of two key members of the City Manager's team. Currently, Assistant City Manager Jane Sumpter (the number two administrative position in the City) and Deputy City Manager Laura Merrill have their offices directly adjacent to the City Manager, about 15 feet away. They will be moved across the building or to another floor, which disrupts the vital personal communication they need with the City Manager and her office in order to effectively and efficiently move the peoples' business forward. They are being dislodged so the City Council can have room for more interns and storage space.

I also do not think the City Council made much of an effort to work with my Administration to find a solution to this effort. I talked to Councilmembers, the City Manager and my Chief of Staff also talked to various Councilmembers and offered a number of suggested solutions. For all intents and purposes, the answer we received then and now in the form of this resolution was to take it or leave it.

I would also point out that the assignment of 7 parking spaces to Councilmembers' second assistants (their Chiefs of Staff already have reserved parking) sends a terrible message to City employees and will trigger meet and confer with the bargaining units of some or all of the 7 employees whose parking privileges will be reassigned to a parking facility considerably further away from City Hall.

It is my hope that by vetoing this Resolution that the Council will choose to work with me and my Administration to develop a solution to this issue that does not involve passing resolutions such as this one.
