## **DRAFT – The West Area’s Guiding Principles**

The guiding principles, as amended by the Steering Committee, are designed to form the direction of the Specific Plan, and how the Plan can best benefit the future of the West Area. The guiding principles incorporate input received from community members and formal recommendations of the Steering Committee.

### **Transportation**

- Accommodate and improve roadway access, connectivity and mobility among all modes of transportation, and prioritize roadway widening where bottlenecking exists.
- Accommodate planned transit services in the West Area by locating routes near or adjacent to the community centers, schools, parks, and retail centers.
- Provide a complete, safe, and well-maintained sidewalk network from residential neighborhoods to commercial centers, schools, parks, and community centers.
- Provide a complete, safe, and well-maintained roadway network that allows for efficient and smooth access from the West Area to other sections of the city and region.

### **Parks & Trails**

- Create parks that are within existing and planned neighborhoods that are easily accessed by community members using pedestrian and bicycle pathways, transit services, or motor vehicles, consistent with the City of Fresno’s Parks Master Plan.
- Provide for the location of a flagship Regional Park in the Plan Area that has components of the Plan Area’s agricultural history through the planting of drought-resistant vegetation or trees, and the creation of public art that exhibits the Plan Area’s contribution to the agricultural industry.

### **Agriculture**

- Incorporate elements of agriculture in future parks by planting a mixture of native drought-tolerant vegetation, shrubs, and trees that can serve to provide shade and enhance the streetscape.
- Encourage and provide land use opportunities for agri-tourism ventures to occur in the West Area.
- Encourage the development of harvest – producing community gardens.

### **Retail**

- Attract desired and needed local retail establishments to serve the needs of the West Area community. Such establishments include grocery stores, bakeries, restaurants other than fast food places, and boutiques.
- Discourage the expansion of undesirable retail establishments such as liquor stores, tobacco and vapor stores, short-term loan and pawn shops, and adult stores.
- Encourage the development of retail establishments along commercial corridors.

**Housing**

- Encourage a variety of housing types and styles.
- Encourage the development of housing to accommodate an aging population including, multi-generational houses and other elder housing options.
- Reaffirm the City's commitment and obligation to affirmatively furthering access to fair and affordable housing opportunities by strongly encouraging equitable and fair housing opportunities to be located in strategic proximity to employment, recreational facilities, schools, neighborhood commercial areas, and transportation routes.

**Catalytic Corridors**

- Encourage the orderly and consistent development of civic, parkland, retail and commercial, mixed-use, and multi-family uses along West Shaw Avenue, West Ashlan Avenue, Veterans Boulevard, West Shields Avenue, West Clinton Avenue, and Blythe Avenue.

**Education**

- Attract much needed educational opportunities for the residents of the West Area, especially for post-secondary education, and access to programs for life-long learners.

**Public Safety**

- Provide for safe routes to schools for children, with the City and County working together with residents, to provide sidewalks in neighborhood that have sporadic access.
- Work to promote Neighborhood Watch in all neighborhoods, and further assess the need for the location of emergency response facilities west of Highway 99.
