PROJECT: CITY OF FRESNO WELL SITE IMPROVEMENTS AT PUMP STATION 210A [WC00016]
RE: NOTICE OF SUBSTITUTION REQUEST

This letter is to notify the City of Fresno of Dawson-Mauldin LLC's request for Subcontractor Substitution on the Pump Station 210A project, located at 4104 North Fruit Avenue, APN 434-020-06T. Per Section 4107(a)(1), of the *Public Contract Code*, a prime contractor may be given consent for substitution of listed subcontractor for the following situation:

When the subcontractor listed in the bid, after having had a reasonable opportunity to do so, fails or refuses to execute a written contract for the scope of work specified in the subcontractor's bid and at the price specified in the subcontractor's bid, when that written contract, based upon the general terms, conditions, plans, and specifications for the project involved or the terms of that subcontractor's written bid, is presented to the subcontractor by the prime contractor.

Dawson-Mauldin has made several, failed attempts to contact DL Masonry with regards to signing the Subcontract, in addition to all other pertinent contract documents/submittals for City of Fresno project no. WC00016. It is the request of Dawson-Mauldin, the listed subcontractor be notified by the awarding authority of our intent to substitute. Should no objection be given, Dawson-Mauldin is prepared to list Stoney Masonry Inc. as a substitute subcontractor for work related to bid item (9), including but not limited to furnish and installation of a combination masonry block and wrought iron building.

If you have any questions, please feel free to give our office a call.

Best Regards,

Ashley Owens
Project Engineer
