1. Based on Net Acreage.

2. Residential density refers to the ratio of residential dwelling units per acre (43,560 square feet) of land which is calculated by dividing the number of existing or proposed residential dwelling units by the land area of the property designated for, or proposed for development with, a residential use. The residential land area includes property upon which the residential and ancillary structures are located, together with yards and other private or common open spaces, and includes vehicle access drives and parking areas together with public and private roadways. The residential land area does not include major streets or State Routes designated by Figure MT-1: General Plan Circulation Diagram, and does not include schools or regional trails.

3. Additional density may be allowed for affordable housing or provision of community benefits (pursuant to California Government Code Sections 65915 – 65918, as may be amended).

TABLE 11-3: CONSISTENCY MATRIX	
Goals, Policies and Programs of the Housing Element	General Plan Consistency
Goal 1 – General Plan Implementation	
Policy 1.1 – Continue the Housing Support Activities of the City and RDA	The General Plan is not inconsistent with this Policy. Although the RDA has been dissolved, this General Plan recognizes and supports the function of the RDA as is now administered by the City of Fresno in its capacity of the Housing Successor to the Redevelopment Agency of the City of Fresno, and the Successor Agency to the Redevelopment Agency of the City of Fresno. Housing activities are supported by the General Plan as noted in the Programs. For example: Objective LU-5, Objective HC-2 and Objective HC-3.
Program 1.1.1 –Implementation of General Plan Policies (affordable housing policies and policies for compact and mixed use development)	<p>The General Plan is not inconsistent with the affordable housing policies and policies for compact and mixed use development in this program. Examples include:</p> <p>Creates a range of housing opportunities and choices. See General Plan Goals 7, 8 and 10; Objectives HC-3, UF-1, LU-2 and LU-5; Policies HC-3-a, UF-1-a, and UF-1-d.</p> <p>Creates walkable neighborhoods. See General Plan Goals 8, 9, 10, and 14; Objectives HC-2, D-4; UF-13, UF-14, MT-5; Policies HC-2-a, HC-2-c, HC-2-d, HC-2-e, HC-6-a, MT-6-g , UF-12-a, UF 14-b and UF-14-c.</p> <p>Recognizes mixed land uses, including Corridor/Center Mixed Use, Regional Mixed Use and Neighborhood Mixed-Use. See General Plan Goals 7 and 8; Objective UF-12; Policies UF-12-d, UF-12-f, LU-3-b; and Figure LU-1 (Land Use Diagram).</p> <p>Takes advantage of compact building designs. See General Plan Goal 10, Objective LU-2, Policies LU-1-c, LU-1-e, LU-2-a, LU-2-b, LU-2-c, LU-3-b, LU-3-c, LU-5-e, LU-5-f, and UF-12-b. Policy LU-3-b explicitly encourages development of mixed-use urban corridors, with other policies supporting infill and higher density, compact development. Additionally, the General Plan is implemented through an updated Development Code, which allows housing to take advantage of compact building designs. It will provide considerable additional opportunities for medium-high (12 to 16 dwelling units per acre), urban neighborhood densities (16 to 30 units per acre) and high density (30 to 45 dwelling units per acre) residential development in close proximity to public transit and employment opportunities. Compact building designs are contemplated to accommodate for these greater densities. Additionally, the adoption of a comprehensive update of the Development Code is part of the implementation of this General Plan. Form-based codes are anticipated for the Downtown</p>

	Planning Area as part of the pending community and Specific Plans for that area. This General Plan provides a land use plan for SEDA. See Figure LU-1 (Land Use Diagram)
Program 1.1.2 – One Stop Processing	The General Plan is not inconsistent with this program. This Program has been incorporated into the General Plan, which promotes streamlining of applications, etc. For examples, see Goal 1 commentary, Goal 13; Objective LU-5; Policies D-4-a, LU-2-b, LU-2-f, and RC-1-c. The MEIR will also allow for streamlining for certain environmental review, and the adoption of a comprehensively updated Development Code (including the streamlining of permit approval) is part of the implementation of this General Plan. Finally, Policy LU-4-c takes this a step further by creating an interagency housing task force to further synchronize programs and to further develop a coordinated affordable housing plan.
Program 1.1.3 – Reduced Housing Costs	N/A. Nevertheless, the General Plan is not inconsistent with this program, as this Program has been incorporated into the General Plan, which promotes reduced housing costs. For examples, see Goals 7, 8 and 9; Objectives LU-4, LU-5, HC-3; Implementing Policies LU-2-b, LU-2-c, LU-2-d, LU-4-b, LU-4-c, LU-5-e, LU-5-f, HC-3-c, HC-3-d.
Program 1.1.4 – Institutional Barriers	There were no institutional barriers identified during the last reporting period. However, even if any institutional barriers were identified, the General Plan will update land use policies, ordinances, and procedures to fully address such issues. See also Tables 3-1 and 3-2 (standards for density and development intensity) and Objective LU-5.
Program 1.1.5 – Complaint Referral	N/A. Nevertheless, the General Plan is not inconsistent with this program. See Objective LU-5. Policy HC-1-a supports implementation of this Program, including continuing compliance, information dissemination, and referral services through neighborhood associations. Objective HC-4 and Implementing Policies HC-4-c and HC-4-d support code enforcement and resolution of landlord/tenant issues.
Program 1.1.6 – Support of Current Law	The General Plan is not inconsistent with this program. See Objective LU-5. The City has been contributing financial support to the FHCCC; for example, see also HC-3-c and related commentary.
Program 1.1.7 – Fresno Green	The General Plan is not inconsistent with this program and will assist implementation of the Fresno Green program. For example, see Goals 3, 4, 9 and 16; Implementing Objectives LU-5 and HCR-3, RC-4, RC-5, RC-8, HC-2, HC-3; supporting policies RC-5-c, HC-2-e, HC-3-f and UF-12-g. Most of the objectives and programs that support these strategies are embedded throughout the General Plan, particularly in the implementing policies of the Resource Conservation Element. See also Resource Conservation and Resilience narrative entitled "Fresno Green – The City of Fresno's Strategy for Achieving Sustainability."

Program 1.1.8 – Funding Energy Saving Improvements	The General Plan is not inconsistent with this program. The General Plan promotes incentives for energy efficient improvements. For example, see Goal 3; Objectives LU-1, LU-5, RC-8, HCR-3, and Policies RC-5-c, RC-8-c, RC-8-d, and HC-3-d.
Goal 2 – New Construction of Affordable Housing	
Policy 2.1 New Construction	The General Plan is not inconsistent with this program. As discussed above in the narrative, the Regional Housing Needs Allocation (RHNA) identified a need for approximately 20,967 units for the 2008-2013 planning period. The number of potential dwelling units allowable in the land use designations proposed by the General Plan, and by zoning in the updated Development Code meet and exceed this amount. Details can be found throughout the General Plan, including increased density and development intensity (such as Table 3-1 and Table 3-2) and infill/growth area construction (Objectives UF-1, UF-12, UF-13, LU-2, LU-4, and LU-5 and supporting Policies).
Program 2.1.1 – Land Demand	The General Plan is not inconsistent with this program. Land use designations are designed to accommodate population growth through 2035, and zoning is consistent with this planned growth. Policies focus on supporting and encouraging infill development to make better use of underutilized lots such as providing infrastructure (LU-2-d) or other incentives (LU-2-c) to make infill more feasible and attractive to the development community. For example, see Objectives UF-12, UF-13, LU-2, LU-5; Policies UF-12-a, UF-12-b, UF-13-a, LU-1-e, LU-1-f, ED-1-d and ED-1-e.
Program 2.1.2 – Reduction in Density	The General Plan is not inconsistent with this program and will continue to comply with State law regarding density reduction. The General Plan allows an overall increase in residential density and development intensity as compared to the 2025 General Plan. (See Goal 8 and 10, Tables 3-1 and 3-2) As such, under this General Plan the City will more than exceed its fair housing obligation and there will be no net loss of residential capacity.
Program 2.1.3 – Central Community Plan Area Housing	<p>Even though Community Plans, and their potential requirements, are not part of the General Plan and are either being amended or repealed to ensure consistency, Program 2.1.3 references the Central Community Plan for the limited purpose of identifying specific geographical regions. As such, the boundaries are still applicable for the purposes of the Program.</p> <p>The General Plan is not inconsistent with this program. For example, see Commentary to Goal 1, Goal 13; Objective LU-5; Policies LU-1-d, LU-2-a, LU-2-b, RC-1-c and D-4-a. Additionally, the MEIR will also allow for a streamlined process for certain environmental review. The adoption of a comprehensively updated Development Code (including the streamlining of permit approval) is part of the implementation of this Plan. (See Resource</p>

	<p>Conservation and Resilience Element narrative including "CEQA Tiering and Streamlining Analysis of Greenhouse Gas Emissions.") Further, the General Plan anticipates community plans and Specific Plans will be approved for the revitalization and continued development of the Downtown neighborhoods, and contemplates adoption of zoning districts specific to the Downtown which will support and streamline the infill process. For example, see Objective LU-3; Policy LU-3-a.</p>
Program 2.1.4 – Inner City Residential Development	<p>N/A. Nevertheless, the General Plan is not inconsistent with this program. See Goal 2 and LU-5. Additionally, infill development is a significant component of the General Plan. For examples, see Goals 2 and 10; Objectives UF-5, UF-12, LU-2, LU-4, LU-9; Policies PU-4-b, ED-1-d, ED-3-f, POSS-1-d, NS-1-p, HCR-3-c, RC-2-a, RC-2-b, MT-2-c, UF-1-a, UF-12-f, LU-1-d, LU-2-a, LU-2-b, LU-2-c, LU-2-d, LU-2-e, LU-2-f. Also see Urban Form Element narrative on "Infill Development," Infill Development Act, and Land Use Diagram Figure LU-1.</p>
Program 2.1.5 – Other Infill Housing	<p>N/A. Nevertheless, the General Plan is not inconsistent with this program. See LU-5. Other infill housing is also a significant component of the General Plan, as is affordable housing. See discussion at Program 2.1.4; Goals 7, 8 and 9; Objectives HC-3, LU-4; Policies HC-3-a, HC-3-c, HC-3-d, LU-2-b, LU-2-c, LU-4-c, LU-5-e, LU-5-f, LU-5-h, and LU-5-i; Healthy Communities Element narrative "Safe and Affordable Housing."</p>
Program 2.1.6 – Multi-Family Land Supply	<p>N/A. Nevertheless, the General Plan is not inconsistent with this program. See LU-5 and the updated Development Code. The General Plan expands the amount of available supply of land designated for multi-family residential uses. (See Land Use Diagram, Figure LU-1) Finally, the General Plan also supports large-scale rezones to promote consistency with its land use designations, including zoned districts for multi-family uses.</p>
Program 2.1.6A – Facilitate the Development of Multi-Family Housing Affordable to Lower Income Households	<p>The General Plan is not inconsistent with this program. The proposed land use changes in the General Plan provide for a total of 38,835 additional dwelling units, which exceeds the 38,469 additional dwelling units identified by the rezoning under this program (Rezone 500 acres of vacant land to the R-2 or R-3 zoning district at a minimum of 20 units per acre and rezone 200 acres of vacant land to R-3 or R-4 zoning district at a minimum of 38 units per acre).¹ The increased density throughout various locations in the city and conversion of commercially zoned land to mixed use districts provides for this increased capacity consistent with this program. This additional housing, outside the Downtown Planning Area, is distributed within the land use categories and densities shown in Tables 3-1 and 3-2 along with the total units for the Downtown Planning Area.</p>

¹ Housing Element 2008-2013 Amendment I.

	<p>The Development Code update also allows for second dwelling units as a permitted use and will assist with providing additional affordable housing to lower income households. See also Objective LU-5 and Implementing Policy LU-5-f. Any remaining actions are N/A.</p>
Program 2.1.7 – Increase Housing Yields	<p>N/A. Nevertheless, the General Plan is not inconsistent with this program. The General Plan and Development Code are prepared consistent with State law. The General Plan is increasing density to increase housing yield per acre. Also see Goal 8, Objectives LU-2, LU-4, LU-5, and MT-8. The Development Code Update further promotes streamlining and/or eliminating some discretionary permits to remove governmental constraints to accomplish increased housing yields.</p>
Program 2.1.7A – Maximum Density	<p>The General Plan is not inconsistent with this program. See Goal 8, Objectives LU-2, LU-4, LU-5, D-3 to create green streets, MT-2 to make efficient use of the existing transportation system, and MT-8. Also LU-1-a to encourage new development and infill in the Downtown, along BRT corridors, and on vacant land within the City Limits (boundary as of December 31, 2012). Allowable residential densities per acre have been increased, which allows for increased housing yields. See Tables 3-1 and 3-2. The General Plan also supports large-scale rezones to promote consistency with its land use designations, including Residential use classifications. Any remaining actions are N/A.</p>
Program 2.1.8 – Mixed-Use Zoning	<p>The General Plan is not inconsistent with this program. Mixed use is a recognized and promoted land use. (See Tables 3-1 and 3-2) The Urban Form, Land Use, and Design Element, as well as the Development Code update, provide design standards for Activity Centers and transit corridors. (For examples, see Urban Form, Land Use, and Design Element narrative entitled "Major Strategic Directions for Future Growth" and "BRT Corridors & Centers;" Figure UF-1; Objective LU-5; Policies UF-1-a, UF-1-c, UF-12-b through UF-12-f, LU-5-f, LU-6-d, LU-9-b through LU-9-d, D-1-b and D-2-a.) The General Plan also supports a form-based zoning code update for the Downtown Planning Area as a component of the Development Code.</p>
Program 2.1.9 – Farmworker Housing Funding and Development	<p>N/A. Nevertheless, the General Plan is not inconsistent with this program. See Objectives LU-2, LU-5, and HC-3; and Implementing Policies LU-2-b, LU-2-d, and LU-4-c.</p>
Program 2.1.10 – Emergency Shelter Grant Allocations	<p>N/A. Nevertheless, the General Plan is not inconsistent with this program. See LU-5 and implementing policy HC-2-b.</p>
Program 2.1.11 – Zoning for Emergency and Homeless Shelters	<p>N/A. Nevertheless, the General Plan is not inconsistent with this program. See Objectives LU-2, LU-5 and HC-3; and implementing policy HC-2-b.</p>
Program 2.1.12 – Zoning for Special Needs Housing	<p>N/A. Nevertheless, the General Plan is not inconsistent with this program. See Objectives LU-2, LU-5; implementing policy HC-2-a, LU-5-i.</p>

Program 2.1.13 – Transitional and Supportive Housing	N/A. Nevertheless, the General Plan is not inconsistent with this program. See Objectives LU-2 and LU-5 and implementing policies LU-4-c and HC-2-b and HC-3-c.
Program 2.1.14 – Single Room Occupancy Housing	N/A. Nevertheless, the General Plan is not inconsistent with this program. See LU-5 and implementing policy LU-4-c, and HC-2-b. These implementing policies are in support of providing a range of housing for all residents of Fresno. The Development Code update also addresses this program, allowing Limited Residential Care in all residential zones as a permitted use and General Residential Care with a Conditional Use Permit in most residential districts (See Table 11-7).
Program 2.1.15 – Very-Low Income Large Family Single and Multi-Family Housing	N/A. Nevertheless, the General Plan is not inconsistent with this program. See Objectives LU-2, LU-5 and Implementing Policies LU-2-b, LU-2-d and LU-4-c.
Program 2.1.16 – Extremely Low, Very Low, and Low-Income Senior Housing	N/A. Nevertheless, the General Plan is not inconsistent with this program. See LU-5 and implementing policy LU-4-c and HC-2-b. These implementing policies are in support of providing a range of housing for all residents of Fresno. The Development Code update also addresses this program.
Program 2.1.17 – Other Extremely Low and Very Low-Income Housing	N/A. Nevertheless, the General Plan is not inconsistent with this program. See Objective LU-5 and implementing policy LU-4-c and HC-2-b. These implementing policies are in support of providing a range of housing for all residents of Fresno. The Development Code update also addresses this program by allowing second dwelling units in all single family residential zones as a permitted use.
Program 2.1.18 – Inclusionary and Alternative Housing Policy Programs	The General Plan is not inconsistent with this program. Although the RDA has been dissolved, this General Plan recognizes and supports the function of the RDA as is now administered by the City of Fresno in its capacity of the Housing Successor to the Redevelopment Agency of the City of Fresno, and the Successor Agency to the Redevelopment Agency of the City of Fresno. In addition, see Objective LU-5 and Implementing Policy LU-4-c, and HC-2-b. These implementing policies are in support of providing a range of housing for all residents of Fresno. The Development Code update also addresses this program.
Program 2.1.19 – Proposition 1C Program	N/A. Nevertheless, the General Plan is not inconsistent with this program. See LU-5; implementing policy LU-4-c.
Program 2.1.20 – Strengthening Partnerships with Affordable Housing Developers	N/A. Nevertheless, the General Plan is not inconsistent with this program. See Objective LU-5 and Implementing Policy LU-4-c. Although the RDA has been dissolved, this General Plan recognizes and supports the function of the RDA as is now administered by the City of Fresno in its capacity of the Housing Successor to the Redevelopment Agency of the City of Fresno, and the Successor Agency to the Redevelopment Agency of the City of Fresno.

Program 2.1.21 – Zoning for Agricultural Employees (Farmworker) Housing	N/A. Nevertheless, the General Plan is not inconsistent with this program. See Objectives LU-2, LU-5 and HC-3; and Implementing Policies LU-2-b, LU-2-d, and LU-4-c.
Program 2.1.22 – Single Room Occupancy Housing	N/A. Nevertheless, the General Plan is not inconsistent with this program. See Objective LU-5 and Implementing Policies LU-4-c and HC-2-b. The Development Code update also addresses this program.
Goal 3 – Housing Rehabilitation, Acquisition and Neighborhood Improvements	
Policy 3.1 – Neighborhood Revitalization	N/A. Nevertheless, the General Plan is not inconsistent with this program. Although the RDA has been dissolved, this General Plan recognizes and supports the function of the RDA as is now administered by the City of Fresno in its capacity of the Housing Successor to the Redevelopment Agency of the City of Fresno, and the Successor Agency to the Redevelopment Agency of the City of Fresno.
