The CoVid item would be an open conversation if there's any additional needs youth in the city have. Regarding the Safe Routes item, yes, they can be included in the agenda before the Co-Vid 19 topic.

Is the COVID-19 needs specific to what the youth commissioners might need?

Also a department asked to be placed on the agenda. See below.

Hi Marco,

I was wondering what the process was to be added to the Fresno Youth Commission agenda for July or August.

We are going to be applying for some grants for “safe routes to school” to do infrastructure improvements and safety education at schools. I was wondering if it would be possible to present the projects at a commission meeting and get some feedback from the commissioners. I think a youth perspective would be helpful to shaping our projects.
