Each bidder has agreed to allow the City sixty four (64) days from date bids are opened to accept or reject their bid proposal. Purchasing requests that you complete the following sections and return this bid evaluation to the Purchasing Unit at the latest by Friday, March 19, 2021 by 5:00 P.M.

The Engineer's Estimate for this expenditure is \$472,000. The contract price is 1.6% below the Engineer's Estimate. If the overage is greater than 10% or only one bid was received, give explanation:

BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

Intersections throughout the city, including Tulare Street and U Street, have been analyzed by the City's Traffic Operations and Planning section which evaluated intersection accident reports, traffic counts, and performed an engineering analysis to develop a prioritized list of intersections recommended for left turn phasing which was brought forth and adopted by the City Council. The intersection of Tulare and U Street is currently ranked No. 2 on that list. This project will add left-turn phasing to the eastbound and westbound directions of travel to improve both the safety and the vehicular capacity of the intersection.
