Councilmember Bredefeld is willing to support the medicinal aspect; however he is opposed to the number of dispensaries included per district and the possibility of including recreational marijuana in year two. He stated his district and others overwhelmingly opposed Proposition 64. When there is a motion to approve he would like to amend Section 9-3307 and add the following language to the end of that subsection: "No cannabis retail business may be located in any council district where a majority of the voters did not approve Proposition 64". Councilmember Olivier asked the City Attorney if any changes are made to this item, and it is up for adoption, does that mean that the process starts over? City Attorney Sloan confirmed that was correct, it would come back for introduction at the next meeting with the new language. There was discussion regarding Proposition 64 and Measure A. Councilmember Baines stated that carving out districts is not good policy making. After more discussion, Councilmember Bredefeld made a motion to amend the item to include the language above. Councilmember Chavez wants performance measures and goals. He asked what does the HERO team do when they are called out. Laura Reynolds spoke on the topic. He wants the administration to report on a monthly basis the statistics of the homeless people helped and the actual services provided, and that the monthly report be provided for each district.

Councilmember Chavez made a motion with the following amendments: 1) The Administration will provide a monthly report by the end of each calendar month, starting this December, broken down by Council District of services provided, including the number of people served, the types of services, and the cost of the services. This needs to go directly to Councilmembers, not just on the City website; and 2) The City's independent auditors (not City employees) shall immediately conduct an audit of all homeless services provided in connection with the City, starting with the HERO Team and expenditures, and then provide to Council a written audit report for discussion during a Council meeting within 90 days

Upon call, the following members of the public spoke on this item: Mary Savala, Scott Spear, Ryan Jacobson, Daniel O'Conner, Jeff Roberts, and Mike Prandini.

Council Vice President Brandau expressed his concern with this being in the General Plan and because of this and a host of other issues, he voted "No" on the General Plan. We are seeing extreme expansion all around the City of Fresno. Even though he wanted this stricken from the General Plan, that is not the action we are taking today. This is a compromise and it helps moving forward for those who want to build in the City of Fresno. City Attorney Sloan read into the record the the following: This does not eliminate the need to mitigate what CEQA requires. The General Plan will still require mitigation of certain farmland, it simply provides more options. Instead of limiting the options for mitigation of one to one easements, it

provides for other options. It does say twice that regardless, CEQA must be complied with. Council President Soria asked staff to make sure we include all the stakeholders in the process.
