REPORT TO THE CITY COUNCIL

March 16, 2017

FROM: JERRY DYER, Chief of Police
Police Department
BY: ANDREW HALL, Deputy Chief
Support and Special Services Division

SUBJECT

Actions pertaining to the Decisions for Life program
1. ***RESOLUTION - 47th amendment to the Annual Appropriation Resolution (AAR) No. 2016-118 appropriating \$40,000 of Decisions for Life (DFL) program carryover to continue operating this program during this fiscal year. (Requires 5 affirmative votes)

RECOMMENDATION

It is recommended the City Council approve a resolution adopting the 47th amendment to the Annual Appropriation Resolution No. 2016-118 appropriating \$40,000 of program carryover to cover operating costs for the remainder of FY 2017.

EXECUTIVE SUMMARY

The department is requesting \$40,000 of current carryover in the Decisions for Life, a first time DUI

Offender program, to maintain operational costs throughout FY 2017. This highly successful and lifesaving program is violator funded and essential in keeping our city streets safe by preventing impaired driving through education. The primary goal of this program is to change behavior before a tragedy occurs.

BACKGROUND

The Decisions for Life program is a first time DUI offender educational program created by the Fresno Police Department's Traffic Bureau in 2008. This program educates first time offenders who are convicted of driving under the influence of alcohol or drugs. This program is designed to change behavior through education. Upon conviction, violators are given the option to attend this class and a fine reduction is imposed by the County. This class is solely funded by the violator and they are required to pay the Police Department a fee to attend.

The goal of this program is to get the first time offender through the Court and DMV process quickly so that they can continue to be a productive citizen in our community. The Decisions for Life program is instructed and facilitated by Fresno Police Traffic Officers and also utilizes health care professionals to educate regarding the dangers of impaired driving and the physiological effects of alcohol.

Another strong component in this program is a partnership with the local Mothers Against Drunk Drivers (MADD) chapter. MADD volunteers speak to the participants in the class, bringing a real life story of the tragedies that impaired driving can cause. The program currently maintains a less than 4% recidivism rate in those who have attended this class.

ENVIRONMENTAL FINDINGS

The purchase of law enforcement equipment is not a "project" pursuant to CEQA Guidelines Section 15378.

LOCAL PREFERENCE

Local preference was not considered since this item does not include a bid or award of a construction or service contract.

FISCAL IMPACT

There is no impact to the General Fund as all costs are funded through enrollment fees.
