REPORT TO THE CITY COUNCIL

October 10, 2019

FROM: GREGORY A. BARFIELD, Director
Department of Transportation

BY: BRIAN BARR, Assistant Director
Department of Transportation

DUANE MYERS, Fleet Manager
Department of Transportation, Municipal Fleet Division

CLIFF TRAUGH, Senior Management Analyst
Department of Transportation, Municipal Fleet Division

SUBJECT

Approve the award of a cooperative purchase agreement to Pape Kenworth of Fresno, CA, for the purchase of one Kenworth T800 truck tractor in the amount of \$161,989

RECOMMENDATION

Staff recommends Council approve the award of a cooperative purchase agreement to Pape Kenworth of Fresno, CA, for the purchase of one Kenworth T800 truck tractor in the amount of \$161,989.

EXECUTIVE SUMMARY

The Department of Public Works, Street Maintenance Division seeks to purchase one Kenworth T800 truck tractor to transport heavy construction equipment to jobsites. The new truck will be purchased as a replacement through a competitively solicited cooperative procurement process administered by Sourcewell, formerly the National Joint Powers Alliance (NJPA).

BACKGROUND

The Department of Public Works, Street Maintenance Division is responsible for maintaining 1,740 miles of city streets and boulevards. As street pavements degrade to the end of their service life, asphalt overlays are needed to restore the street back to a good and serviceable condition. This maintenance treatment is performed annually by the Street Maintenance Division utilizing heavy paving equipment. As this equipment is not designed for over-the-road travel to jobsites, heavy-haul trucks are required for efficient transport.

To accomplish this mission, the Street Maintenance Division operates three aging truck tractors tasked with transporting the paver, grinder, and large debris trailer. All three of these trucks are over 14 years old, with the oldest truck being a 1993 model year. The new Kenworth T800 will offer superior performance, maneuverability, and visibility through the purpose built design as a heavy-haul truck. The new unit will be compliant with the applicable US 2010 emissions standard, while providing improved fuel economy and power.

The heavy truck class is on a ten-year or 250,000 mile replacement schedule, which has been established by the Municipal Fleet Division as the optimum replacement time. The unit identified for replacement is 26 years old and has well exceeded its useful life. This truck is also in need of extensive repairs to return it to working order. The Municipal Fleet Division recommends replacement based on the unit age and condition.

The total purchase price for the Kenworth T800 truck tractor is \$161,989. This price includes the Sourcewell, cooperative purchasing discount applied to City purchases, as well as sales tax at 7.975 percent. The Purchasing Division has approved this contract and recommends Council to approve. The City Attorney has reviewed and approved to form.

ENVIRONMENTAL FINDING

By the definition provided in the California Environmental Quality Act (CEQA) Guidelines Section 15378, the award of this contract does not qualify as a “project” as defined by CEQA.

LOCAL PREFERENCE

Local preference is not applicable. The City is not issuing a request for quote for this cooperative purchase agreement.

FISCAL IMPACT

No general funds will be used to purchase this item. The funding to cover the purchase cost of the Kenworth T800 truck tractor has been included in the FY20 adopted budget under the operations of

the Department of Public Works, Street Maintenance Division. The source of funding for this project is Proposition 111 Gas Tax.
