Elm Avenue Rezone Project

Summary of Neighborhood Outreach

Neighborhood Meeting

On October 25th and 26th, 2023, a letter to property owners within 2,000 feet of the subject property (APNs: 328-211-43, 328-211-44, 328-211-45, 328-211-46, 328-211-47, 328-211-48, 328-211-49, 328-211-50, 328-90-25, 328-290-28, and 328-290-29) was sent notifying them of a Neighborhood Meeting to occur on November 6, 2023. Letters were also sent out to tenants and residents within 1,000 feet of the subject property. A total of 428 letters were sent out. The letter is attached as **Exhibit A**. The full address list is attached as **Exhibit B**.

The meeting was held in-person at West Fresno Elementary School cafeteria, which is within close proximity of the subject property. Prior to the meeting, PCE received one email and two phone calls. PCE left a voicemail back to the caller and received no call back. The second caller had a question about the rezone itself, but no real concerns. The email other was asking for a copy of the letter sent out. PCE emailed this as requested.

The Neighborhood Meeting held on November 6, 2023 began at 6:00 pm. Six representatives from Precision Civil Engineering attended the meeting, along with 2 other applicant representatives. A sign-in sheet was circulated, and an estimated 40 individuals were found to be present at the meeting (some individuals did not want to sign in).

The applicant team began the meeting with a quick welcome and introduction of the applicant team, and then gave a brief overview of the Project through an informal PowerPoint presentation. This presentation provided background information on where the property is located, the existing conditions, what a rezone is, and the new proposal/rezone being introduced (etc.). A copy of the presentation is Attached as **Exhibit C.**

After the presentation, PCE transitioned into small groups where one representative from PCE facilitated a discussion with 5-6 attendees at each group. The following question served as conversation starters:

1. What are your concerns about the project: environmental, physical, safety, neighborhood compatibility.
2. What do you propose to address these concerns.
3. What do you like/dislike about the proposed conditions of zoning.
4. What you would change were asked.

Many participants provided feedback and answers to these questions. The responses are summarized below. The meeting concluded at 7:00 pm. Participants were asked to leave their email address to receive a follow-up on the questions/concerns raised. The applicant team plans on responding and presenting those responses to the City.

Summary of questions, comments, and concerns brought up at the Neighborhood Meeting (a full list is provided as Exhibit D).

During the Neighborhood Meeting, PCE heard the following:

- What changes are coming with the rezoning?
- The location is not supported.
- What will happen when improvement/upgrades are requested?
- What type of pollution might be produced?
- What's the difference between light and heavy industrial?
- Size of the Project and its significance to the surrounding area.
- What is the point if the existing business can operate now?
- Noise/odor/waste/traffic?
- Give a counterplan for brownfield.
- Owners did not ask the community what they want for the space.
- Why don't landowners see what they can do with the existing zoning?

Ultimately, the residents in attendance were not in support of the proposed rezone. It was communicated that participants were upset about the possible effects of the rezone. PCE and the applicant team told participants that they would give the city responses to all concerns and questions. They were also advised that the rezone application was in the early stages and that they would have additional opportunities to voice their concerns at Planning Commission and City Council hearings.

October 25, 2023

Dear Neighbor,

You are receiving this letter because you own property or live on property that is within 1,000 feet of property whose owners are requesting a rezone, or you are an identified interested party. A rezone is a request to change the zoning designated on a piece of land. Zoning is a set of rules by which land may be developed or used.

The subject property is located at 2825-2949 South Elm Avenue, Fresno, CA 93706 (see attached location map). The property is currently fully built out with light industrial uses and the owners of the property would like to continue current operations. The property was rezoned in 2017 from Light Industrial to Neighborhood Mixed Use. The property owners would simply like to go back to this Light Industrial zone district to more accurately reflect current uses on the property. **No development is proposed as part of this rezoning request.**

We are holding a neighborhood meeting to provide information and receive feedback from nearby residents and property owners regarding the proposed rezone and plan amendment (described below).

Meeting Information

If you would like to find out more about this project, please attend this neighborhood meeting held in person at the location below:

Date: Monday, November 6, 2023

Time: 6:00 pm to 7:00 pm

Location: West Fresno Elementary School
Cafeteria
2910 South Ivy Avenue,
Fresno, CA 93706

Project Information

The Project encompasses 55.31 acres of land bounded by South Elm Avenue to the west, Annadale Avenue to the north, SR 41 to the east, and adjacent parcels and East North Avenue to the south. Site addresses include 2825, 2855, 2875, 2909, 2925, 2929, 2933, 2935, 2945, 2947, 2949 South Elm Avenue, Fresno, CA 93706. **The project proposes to change the zoning and land use from Neighborhood Mixed Use (NMX) to Light Industrial (IL). No development is proposed.**

In addition to the rezone, the project also includes a Plan Amendment application to amend the planned land use designated by the Fresno General Plan and the Southwest Fresno Specific Plan from the NMX planned land use to the IL planned land use.

Contact

Please contact Bonique Emerson at (559) 449-4500 if you have any questions about this meeting or the project described above. Food and drinks will be provided. If you need translation services, childcare, or transportation, please contact me at the number below so that we can arrange these services.

Comuníquese con Bonique Emerson al (559) 449-4500 si tiene alguna pregunta sobre esta reunión o el proyecto descrito anteriormente. Comida y bebida serán proveídas. Si necesita servicios de traducción, cuidado de niños o transporte, comuníquese conmigo al número que aparece a continuación para que podamos organizar estos servicios.

Sincerely,
Bonique Emerson, Applicant Representative

Exhibit C: Presentation

Elm Avenue Rezone

Neighborhood Meeting

November 6, 2023

Agenda

- 6:00 - 6:10 pm | Welcome and Introduction
- 6:10 - 6:25 pm | Informational Presentation about the Rezone Request
- 6:25 - 6:30 pm | Transition to small groups
- 6:30 - 6:55 pm | Small group discussion
- 6:55 - 7:00 pm | Wrap up and next steps

Providing Input

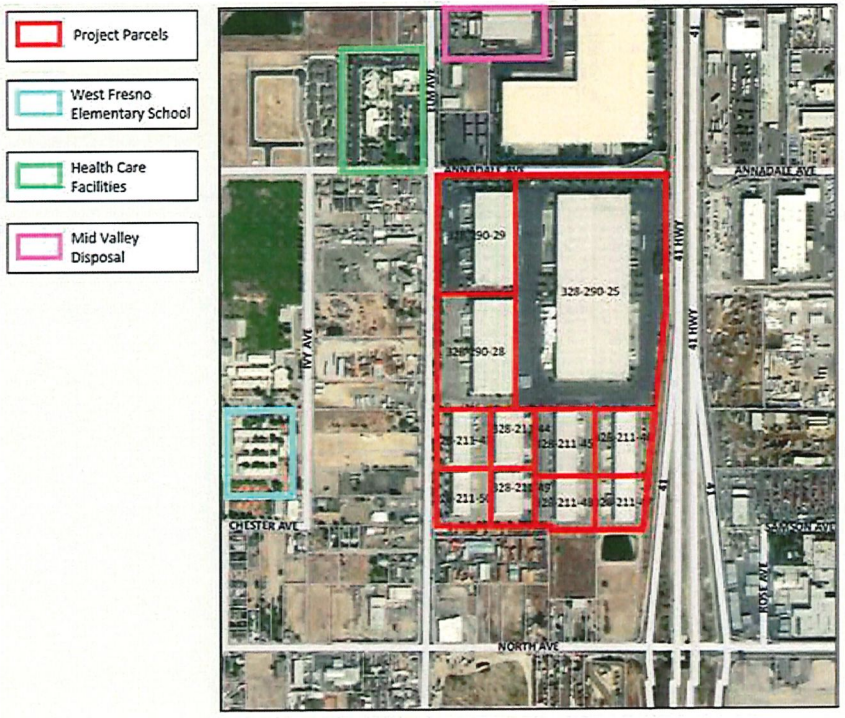
- After the presentation, we will break up into smaller groups for discussion.
- The group facilitators will have a set of questions to start the conversation. The facilitators will also outline ground rules to make sure the discussions are respectful to all involved.
- The facilitators will take down notes on community concerns. Questions will be written down.
- Following the meeting, the applicant group will respond to all questions and incorporate any feasible solutions into the project.
- The responses to comments will be provided to the City of Fresno. Make sure you leave you email address on the sign in sheet so that responses to the questions can be emailed directly to you.

Where is the Property in Question?

The property is located within the City of Fresno, West of the 41, South of Annadale Avenue and East of Elm Avenue (area outlined in red).

West Fresno Elementary School is west of the subject property.

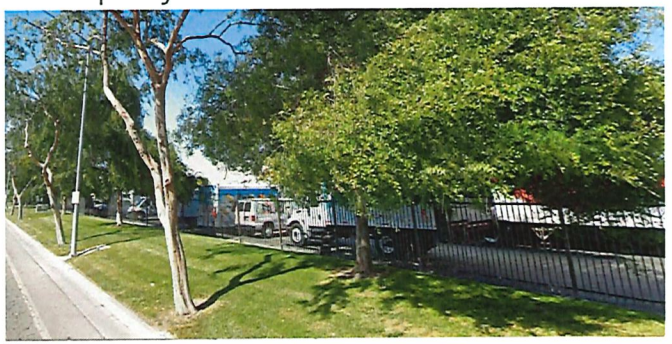
The subject property consists of 11 parcels totaling approximately 55.31 acres.



Existing Conditions

- The property is currently located in a Neighborhood Mixed Use Zone (NMX) district.
- Located to the north, south and west of the property are light industrial uses, with industrial uses also to the east (east of 41).
- Currently the property is occupied by numerous light industrial businesses.

Property view from Annadale Avenue



Property view from Elm Avenue

What is the Request?

- The project proposes to rezone the parcels from Neighborhood Mixed Use Zone (NMX) to its original designation of Industrial-Light (IL) in order to be more consistent with the current uses.

- In addition to the rezoning, the proposed project includes land use amendments to the South-West Fresno Specific Plan (SWFSP) and General Plan in order for the land use designation to be consistent with the proposed zoning.

- Additionally in order to address concerns previously raised by the community about the rezone request, the property owners have agreed to adding conditions on the zoning that will restrict future uses.

What is a Rezone?

- A rezone is a request to change the zoning designated on a piece of land.
- Zoning is a set of rules by which land may be developed or used. For example, in land zoned for residential the development of commercial uses is restricted.
- Rezoning changes the existing zoning to a new zoning designation.

Background

- Through the early 2000s, the properties included a former dairy and environmental contamination
- The properties were redeveloped as part of the City's 1999 "Elm Avenue Corridor Blight Removal, Streetscape and Business Attraction."
- The City attracted the current landowners to re-develop the Elm Avenue Corridor between the early 2000s and 2016

Background

- Properties include national and local light industrial tenants employing hundreds of Fresnans
  - IFCO
  - Barney Butter
  - PODS Moving & Storage
  - Western Power Sports
- Over $100 million investment in the City
- **Mid-Valley Disposal is not a part of this property/request**

2017 Rezone

- Rezoned to NMX in 2017 as part of the SWSP
- The current uses are not allowed in the NMX Zone District
- NMX Zone District primarily contemplates higher-density housing mixed with local-serving commercial uses and offices.
- Allowed uses include:
  - Multi-family residential
  - Various commercial uses, including automobile repairs and sale, banks, entertainment, hotels/motels, offices, maintenance and repair services, and retail sales
  - Limited other uses

Why is the NMX Zoning a Problem?

- Rezoned to NMX in 2017
- Landowner Impacts:
  - Diminishes the ability to attract reputable, responsible, and well-capitalized tenants
  - Undermines ability to sell; plummeting property value
  - Undermines ability to obtain financing
  - Non-use can result in loss of legal non-conforming status
- Regional Issues:
  - Loss of Jobs to other states and regions
  - Undermines the City's ability to compete with other jurisdictions
  - Economic investment requires certainty and predictability

City Council Direction

- SDG and Mid-Valley Disposal were rezoned to IL on 10/13/2022
- With respect to the remaining ~60 acres:
  - On 10/13/2022, the City Council asked these landowners to negotiate with community representatives regarding an overlay district
  - Those negotiations were unsuccessful
  - On 5/11/2023, the City Council gave direction to seek IL zoning (without the overlay district)

New Proposal

- Landowners are seeking to rezone the remaining acres to Light Industrial
  - Although the overlay district negotiations were unsuccessful, the Landowners are asking the City to keep the commitments the Landowners made to resolve the issues identified by the community. These commitments would be binding on future property owners as conditions of zoning recorded against title to the property.

Binding Commitments that Would Encumber the Property

- The binding commitments include:
  - Limits most new construction/expansion of footprint
  - Prohibitions on certain uses, such as more intensive manufacturing uses and recycling
  - Ensuring trucks would not pass by schools or through residential neighborhoods
  - Enhanced landscaped buffers
  - Assurances that odors and unacceptable noise levels would not be present beyond the property
  - Assurances that no impacts to groundwater would occur
  - Adherence to California Green Building Standards
  - Presentation of releases of hazardous substances
  - Measures designed to reduce mobile source emissions

Assessment of Environmental Impacts

- The City is preparing an environmental analysis that assesses the potential environmental impacts of the rezone request
  - No changes in land use or operations are proposed or requested
  - The proposal includes prohibitions on enlarging existing uses
  - As before, it is anticipated the document will find no new significant environmental effects would occur

Common Misconceptions

- This will result in new industrial buildings
  - Inaccurate. **The site is fully built out with light industrial uses.**
- This will result in the expansion of industrial uses
  - Inaccurate. **The landowners have included restrictions on expansion and the site is already built out.**
- This will result in facilities that "dump pollution"
  - Inaccurate. **These are light industrial businesses that do not dump pollution. The businesses are legally prohibited from dumping pollution, and the conditions of zoning proposed by the landowners provide further protections to provide assurances no such pollution will occur in the future.**

Common Misconceptions

- You are bringing heavy industrial uses to our neighborhood
  - Inaccurate. **The landowners are seeking light industrial zoning, consistent with their current uses. Heavy industrial uses are not allowed.**

- This will result in new environmental impacts
  - Inaccurate. **The landowners only seek to preserve the existing uses, meaning there will be no new impacts.**

Breakout Discussion

Exhibit D:
Comments/Concerns

Solutions	
Number	**Comment**
1	Keep current zoning
2	Affordable Housing
3	Land Owners need to change-change business model
4	Hospital?
5	What could expansions include?
6	Who they want?
7	Statement from landowners
Comments/Questions	
8	Walking/Trails
9	SW specific plan in place since 2017-community places
10	Why don't landowners see what they can do w/existing zoning
11	Asthma prevalance
12	There are changes-changes to general plan
Questions/Concerns	
13	Undoing what community put in place
14	City going back on what they have done/promised
15	Land owners should do what we agreed to during rezone
16	Where do owners live?
17	Plastic involved in?
18	Covid & relationship to businesses/uses
19	Environmental impacts?
20	Environmental impact-safety for children
21	Why don't owners want to build what it is zoned for?
22	Why is outreach culturally insensitive-ground rules-insulting?
23	Community needs business that benefit community
24	Landowners needs to be a good neighbor-air quality
Environmental/Neighborhood Compatability	
25	No attempt by property ownders/current users to conform w/NMX Z.D./SW-SP -AB617 Community
26	Worst environmental situation (AB617)
27	Continued Environmental racism
28	Evolution: Designed to eventually move out those users. That was the point of S.W.S.P

29	Light Industrial still pollute
30	Multiple environmental impacts
31	Why don't property owners answer?
32	Now many people live in the area
33	Not a public process/engagement
34	City granted 1/3-->IL "we want it all" mentality 92 acres not part of rezone
35	Email-->is 1:1 No totality/not community minded
36	# of notices that went out?
Public Outreach/Notice 1-mile around proposed site	
37	Leave it as NMX
38	Invest in community
39	Housing-Funding available
40	Use exisiting building
41	What has business done to improve neighborhood? To make things better?
42	CEQA Cummalative impacts -Rezone has community impacts -Violation of AFFH
43	Violation of several state laws.
44	Owners don't ask what the community wants to use the space for. Things that will benefit the community.
45	Send letters to be more clarifying. Notice for the meeting to the neighborhood is vague. Reach more community members & voters. Simple=for the average resident
46	Letter to be completely translates to Spanish also
47	Dislike because it started because of redlining. Should not have been here in the 1st place.
48	Concessions did not go far enough to protect the community.=no rezone
49	Owners did not participate in meetings. They should listen to the community. Said they did not get notified about SW Pacific
50	Dislike because of Location: right by school & clinic & senior citizens development
51	They can move the whole business south of North Ave w/the other Industrial Businesses

52	AB-617-most polluted area. Making IL is not in line w/that. Still get emissions from trucks. Need to eliminate truck traffic by area.
Concerns About Project	
53	Going against need of community. NMU benefit the community
54	We shouldn't change it to accommodate them. This was already voted for by the community. Uses they currently have are grandfathered in Southwest Pacific Plan. Hope for other businesses to use those spaces. Does not have to be residential.
55	The point of the SW Pacific Plan was to transition out of light industrial
56	Concern: listen to what the community voted for.
57	Make sure to anyone involved w/SW Pacific Plan gets a notice for meeting.
Questions/Concerns	
58	What is the definition of light industrial? -concerns about the definition: heavy industry remnants, watersystem impacts, airquality impacts.
59	What is the point if the exisiting businesses can operate now?
60	What will happen when improvements/upgrades are requested? The impacts that will occur?
61	Ability to move fertilizer-a new component of the new proposal.
62	City Landfill
63	Messaging + transparency about no evironmental impacts is a misleading statement; e.g. warehousing is not a prohibited use
64	Southwest SP work + progress
65	City's plan to address/implement the SP
How can these concerns be addressed?	
66	Propose a counter "proposal" plan: brownfield remediation if not 100% occupancy
67	Campaign donations from developers
68	Truck terminals-what is the defined use?
69	Respect for community+what was decided in SP
70	Brownfield remediation + $ available to develop per SP
71	Haven't had enough ppl sueing the City for air quality
72	Deaths caused by sewage
73	Leasing for electric vehicles? Vs. electrification. What was Kinsey saying? Legal nonconforming status makes it harder to finance electrification for fleets-talked to banks + not true PRA abouth this + no docs provided

74	Limited industrial was not part of the plan but being proposed still? Impacts resulting from these uses.
75	Give a counter plan for brownfield?
	Questions
76	How many owners?
77	What type of pollution might be produced difference between light & heavy industrial?
78	Noise/odor/waste/traffic?
79	Electronic waste products?
80	Has City received comment from outside agencies?
81	Where is city council representation?
82	What is the timing for public review/comment period?
83	Notify church community?
84	How will City make review of docs more accessible to the community?
85	Rezoning will affect all of SW Fresno
86	Size of the project is significant enough to affect the whole area
87	Why was the city staff not part of this meeting?
