Existing Smoke Shops, lawfully established pursuant to the Municipal Code prior to the effective date of this ordinance, must come into compliance with all operational requirements within 30 days of the Effective Date of this Ordinance. No Existing Smoke Shop may make a substantial change of mode or character of their operation. A substantial change of mode or character shall include, but not be limited to, structural changes which expand the sales area of Smoke and Vapor Products and related items by more than a cumulative 5% commencing from the effective date of the ordinance, or a period of closure for more than 30 days; transfers of ownership shall not be considered a substantial change of mode or character of operation.
2. Existing Smoke Shops may sell or transfer their existing Business License, but the new owner shall also be subject to all provisions of this Code applicable to Existing Smoke Shops.
3. Existing Smoke Shops may continue operation for 18 months from the effective date of this Ordinance (the "Amortization Period"), provided they

comply with Subsection C.1. The Amortization Period shall be outlined by the City Manager, or designee, pursuant to Section I.1., below. Existing Smoke Shops which are not awarded a Conditional Use Permit, as required by Section D., below, may operate until the end of the Amortization Period. Once the Amortization Period has expired, the Existing Smoke Shop must immediately cease all operations in perpetuity.

a. Existing Smoke Shops that can demonstrate that 18 months is an insufficient amount of time to amortize their investment, must submit a request for reconsideration to the Director no later than 90 days prior to the expiration of the Amortization Period. The request for reconsideration shall be subject to the appeal provisions of Section 15-5017, Appeals. Each request for a longer term for amortization shall be considered on the basis of the submitted evidence and any extension provided shall be specific to the individual request. Factors to be considered by the Review Authority in determining if the time provided hereinabove is insufficient for the Existing Smoke Shop which requests reconsideration shall include:

- i. The precise nature of the nonconforming use.
- ii. The portion of the business that will be affected, on a pro rata basis.
- iii. The total amount of the investment made for the

business, including on the property and any improvements thereon, as well as the total investment for the pro rata portion of the business that sells Smoke and Vapor Products, including the present or depreciated value of any property owned.

- iv. The expiration date and termination rights under leases related to the operation of an Existing Spoke Shop. Any new leases or lease extensions, amendments, or renewals entered into in close proximity to the passage of this Ordinance may be a basis for denial of the request for extension.
- v. The ability of the business to recover its investment by changing the use of the property, and the amount of time and additional investment needed to do so.
- vi. Any violations of Federal, State, or local law.
- vii. Any other information the Smoke Shop Operator deems relevant for the City to consider.

City shall review timely-filed applications within 60 days of the close of the application period to ensure they meet all requirements set forth in this Ordinance. Should no applications be received within 60 days of publishing the notice, the City shall re-notice the availability following the above process. Councilmembers shall be provided with notice of any applications received for their respective District.
2. The City shall hold a lottery within 120 days of the close of the application period whenever the number of qualified applications exceeds the number of Conditional Use Permits available within a given Council District. The

lottery shall be conducted in a manner determined by the City Manager, or designee, under the authority granted by Section I.1., below. A lottery selection does not confer any right to operate a Smoke Shop, only the right to file an application for a Conditional Use Permit. All other requirements of this Ordinance must be met for the issuance of a Conditional Use Permit.

3. At any time that one or more Smoke Shop vacancies become available in a District, the City shall grant a Conditional Use Permit for a New Smoke Shop following the above process.
4. City Council may increase the number of new Smoke Shops permitted in any given District upon passage of a Council resolution brought forward by the Councilmember of the District for which the limit increase is being requested.
