VII. COMMISSION ITEMS

VII-A [ID 25-1009](#) WORKSHOP - High Speed Rail Updates

6:03pm

Dr. Amanda Harvey, from High Speed Rail (HSR) provided a PowerPoint presentation on the updates from her organization. She talked about the Belmont Interpretive Exhibit changes in lighting from the 2020 approved design as a result of Public Works' Review. She also talked about a new Roeding Park Interpretive Exhibit. She showed the proposed location, design, and materials. She concluded her presentation on the many lanterns found in the Belmont Underpass.

The Commission requested sample information on the lighting at the Belmont Exhibit, to be reviewed by the Architectural Review Subcommittee.

They also voiced concern that Roeding Park is not a local Historic District, and requested the Sign Review Subcommittee review the exact language on the exhibit. Laval offered to assist with high resolution photos from the Pop Laval collection if needed.

The Commission discussed possible origins and uses for the 81 lanterns found.

VII-B [ID 25-912](#) Review and Comment on the Draft Environmental Assessment for the Airport Traffic Control Tower (ATCT) located at APN 49407178.

6:21pm

Karin Bouler, consultant, presented a PowerPoint on the Draft Environmental Assessment results of the Airport Traffic Control Tower (ATCT). She provided an overview of the project, listed the findings,

summarized the 7 alternative options evaluated, discussed the Section 106 consultation and Memorandum of Agreement, explained the proposed mitigation measures, showed the milestones and timeline of the project, and concluded with next steps.

Clark explained the duties of the Commission and what falls under their purview.

The Commissioners took turns voicing their concerns regarding the demolition of the ATCT and associated loss of history. They asked Bouler and Francisco Partida (Interim Director of Aviation) about the alternatives researched and requested an option that does not require complete removal of the tower. A suggestion was made that the tower be considered for use as an aviation museum, citing possible Measure P funds as a funding source. If none of their suggestions were possible, the Commission asked that the ATCT be dismantled and either put together somewhere else, or parts used in the new design. They concluded the discussion on the importance of the tower and its cultural heritage value.

- VII-C** [ID 25-1030](#) Monthly update on the Jose Garcia Brewer Adobe Building, HP #227 located at 5901 W. Shaw (APN 51004038).

7:10pm

Atkinson reported that Staff is working on setting up a meeting with the property owner and that they were still in talks with the City Attorneys about available options. No significant change in condition was reported
